## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/10/03 has been entered.

### ***Claim Rejections - 35 U.S.C. § 112***

2. Claims 25-29 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification, as originally filed, does not provide support for the limitation added to claim 25, specifically "site-specifically to substantially all regions of the at least one surface having a base coating thereon, the base coating being located only on portions of the at least one surface". The third full paragraph on page 5 of the after final amendment filed on June 10, 2003 indicated that support for the limitation added to claim 25 can be found on page 23, lines 6-11, of

Art Unit: 1641

the originally filed specification. However, this is not the case. The page and line cited by Applicants does not provide support for this limitation.

3. Claims 26 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 26 and 27 are confusing. Claim 25 now recites a “base coating” on the waveguide surface for attachment of the oligonucleotides. The function of the “first coating” in claims 26 and 27 is not clear in view of the presence of the “base coating”.

4. The previous art rejections are withdrawn in view of the new limitation added to claim 25. However, if support cannot be shown for this new limitation in the originally filed specification to obviate the above new matter rejection, this limitation should be withdrawn from claim 25. And the previous art rejections of record will be reinstated for claims 25-29.
